

Church Photo Album

by: [Barry Coolen](#)

These photographs were taken at the church in Prospect on 1 January 2007 . The majority of these photographs were taken with the church lit only by candlelight. To compensate for the low level of light different camera shutter speeds were used (e.g. 5 to 15 seconds). Of particular note is the last image, which a panoramic shot of the entire church. The image is large, but gives you a complete, 360 degree view of the church.
