

Map of "Upper Prospect" by Ambrose F. Church, 1865

(redrawn from an inset on a map of Halifax County)

Copies of the original black and white "Church" map are available from the Nova Scotia Department of Natural Resources (see link on previous page)

This version was produced by Douglas Grant (Terracon Geoscience International).

Linework and type closely follow the original, but with the addition of colour.

Colour copies of this version are available from the author, but users may download a scaleable, printable copy for personal use (see link on previous page).
