

Reproduction drawing of part of "Old Plan of Prospect" with colour added. The original map has been written on both sides and the reverse side was microfilmed (see "Old Plan of Prospect" — an image of Fiche 44* from which this map was made). This tracing inverts the drawing to its correct aspect. The original map has few place names (shown in **red**), some of which are in error so, for reference purposes, current geographic names are added (in **black**). The **pink** lines are problematical; some may be property boundaries. All of the detailed information, including inhabitants' names, within the area outlined by the **grey** square, is shown in the accompanying map entitled "Fiche44 Names".

(*Fiche 44 is a microfilm in the "Halifax West Portfolio", Provincial Crown Lands Record Centre, Nova Scotia Department of Natural Resources.)
